Abdulaziz Muhammed

Software developer

Software developer with a recent Bachelor in Information Technology and hands-on experience building mobile and desktop applications; driven to deepen practical skills and deliver user-centered solutions. I will contribute clean, object-oriented code, solid RESTful API integration, and reliable CI/CD practices to accelerate your development pipeline and product releases.

Education

● Bachelor Degree By Information Technology

From July 2021 to July 2024 [Arba Minch University](#) Arba Minch, Ethiopia

Work experience

● Software Developer

Since Aug. 2024 [Tech Equations](#) Addis Ababa, AA, Ethiopia

Working on Mobile and Desktop Application

Skills

RESTful API design

Continuous integration and deployment (CI/CD)

Knowledge of databases. Postgres and SQL

Object-oriented programming

Understanding of basic data structures and algorithms

Familiarity with debugging, testing, and QA processes

Experience with version control systems (Git, GitHub)

Proficient in modern programming language (Dart, Java, C++, JavaScript, Typscript)
